13th

THESSALONIKI VITREO-RETINAL SUMMER SCHOOL

A TVRS MESSAGE BY A. NIKOLAKOPOULOS TVRS DIRECTOR

Dear colleagues and friends,

We have the honor to invite you to the 13th THESSALONIKI VITREORETINAL SUMMER SCHOOL (TVRS), which this year, is going to be held between 1st and 6th of July 2024 in Thessaloniki. The 6-day summer campus, consists of wet labs and Lectures, given by 52 International Masters in Retina Surgery and Medical Retina, as well as Dry simulators Labs.

This year we would have also Gonioscopy attached to BIOM and treating glaucoma complications in VR surgery. Our aim is to bring together healthcare professionals and find out how to improve our practices. Our ambition is to inspire colleagues who wish to start a program, need support, and further hands on training.

This year we have 52 invited international expert Faculty from 19 countries to teach 40 ophthalmology participants from 10 countries from all over the world to join us in Thessaloniki.

And happy to welcome foreign colleagues from Switzerland, Italy, Russia, Serbia, Brazil, Egypt, USA, Canada, Turkey, France, Japan, India, Germany, Argentina, Bulgaria, South Africa, Kuwait, Portugal, Romania, Czech Republic, Israel, Morocco, Poland, Cape Town, Bosnia, Sweden, Estonia, Hungary, The Netherlands Saudi Arabia, Jordania, Kuwait and Greece.

The last few years we have introduced for training the famous Bionico Artificial Eyes from Miami for ILM Removal Techniques, cataract complications, macula surgery, subretina injections, Retinal surgery current systems and many more using some latest technology Microscopes and almost all-important current Vitrectomy systems to set up of having in one station Artificial Bionico Eyes, the latest microscope and wide-angle lens systems for True To Life Surgery (TLS) in TVRS.

1 - 6 July 2024

A TVRS MESSAGE BY A. NIKOLAKOPOULOS TVRS DIRECTOR

We are happy to announce the latest BAUSCH AND LOMB microscope Shi-luma from our Faculty teachers to project on a wide movie screen the surgical steps using the Wi-Fi-capabilities of a new microscope.

Also, we are pleased to announce that this year we will have the latest version of the BD Ingenuity platform in all our constellation systems.

Just a small update to a very important issue is the section of teaching cataract surgeons to treat cataract complication using Vitrectomy and fixing Iris problem, IOL dislocation, dropped lens fragments and the art of placing endoscleral and Iris Supported IOL.

We are planning to have at least 15 hours of wet labs for each participant. Upon completion of the school, participants that will select to attend, will receive an intensive training. One of TVRS main issues is to introduce latest technology and an update of 3D surgery. Very important is to learn tricks & tips when facing difficult situations that cannot be found on the internet. Looking forward to enjoy continuing interaction in a campus like society, being together from breakfast to lunch, from lunch to dinner & between the whole day all together, faculty & participants.

One of our happiest results is the interaction for the last 12 years between our 450 participants and enjoy of having 9 old participants becoming TVRS Faculty teachers.

Looking forward,
Athanasios Nikolakopoulos
TVRS Director
